## **SPECTACLE ANNUEL 2012**

Welcome!

It will soon be an opportunity for your children to present their show at the end of the season. Many of you aren't aware that all skaters from Patinage Plus without exception are invited to attend the show. Even toddlers can participate!

### **A decision that you must take**

The last lesson of Patinage Plus will be held on 9 and 11 February 2012. After that date, it'll be learning choreography time. Only skaters who make the show will be allowed on the ice. You must confirm before February 4 if your child will do the show. To guide your thinking, here is some important information.

### **What does it represent?**

- 4 weeks of practice (during Spring Break, the practice periods will be used for regular classes)
- On the last lesson, 15 and March 17, schedule will be modified so the skaters from the same levels can practice together.
- The Generale practice (March 22)
- Three performances (evening of March 23 and 24, and the afternoon of March 25)

"As we ask the skaters to be present at all practices of choreography, in general, and the three representations, we encourage you to discuss your child's schedule so that he too knows the requirements of the event . We know that many, but the effort is worth it! "

\ The number of the youngest children will be among the first presented, so you can pick up your child at intermission.

### **We need you**

You can actively participate by finding sponsors for the show program and / or by getting involved as volunteers.

We're glad to present to you another season final and we thank you in advance for your cooperation.
